

MINISTER ARRIAGA LIKES WASHINGTON

New Representative From Honduras Awaits Presentation to President.

ANXIOUS TO STUDY
AMERICAN CUSTOMS

Has Been Consul General in New York for the Past Year.

Dr. Luis Lazo Arriaga, the new Honduran minister to the United States, in Washington, who succeeds Dr. Angel Ugarte, has arrived, and is awaiting his presentation to the President. He is much pleased with his new post, and today expressed himself as happy to take up his residence in Washington, where he can more closely study the United States, and American customs.

As was told in The Times yesterday, Dr. Angel Ugarte has been recalled by his government, so that he may head the diplomatic delegation which is to be sent by Honduras to Mexico. For the past year, Dr. Arriaga has been consul general of Honduras in New York, and the appointment to Washington his first post as minister. He has an appointment with Secretary of State Root for tomorrow morning, when the details of his presentation to the President will be arranged.

Dr. Arriaga was one of the most prominent physicians in Honduras before he entered the public service. He is widely known and liked in his own country, and has many friends in Washington social circles. He said that he was pleased to come to Washington for many reasons, principal among which was his liking for America. "I have always admired this country," he said, "and have wanted to study it, so naturally it is a great pleasure for me to come."

Changes in Diplomatic Circles Will Be Numerous

An unusual number of changes in the Diplomatic Corps stationed at this Capital, are scheduled to occur this winter, as the result of death, resignation, transfer and, in at least one case, removal.

Germany has not yet selected her new ambassador to the United States to succeed the late Baron von Sternburg, and up to the present moment has not even suggested a name for the approval of this Government. It is believed that the Kaiser is waiting for more definite advice regarding the result of the pending elections in this country before making the appointment.

Mexico has just announced that her ambassador, Senor Chel, is to retire in the near future, and there will be a new representative from that country. Turkey has already appointed as her new ambassador—the first of that rank to come from there to this country—Diazim Bey, who, for the last sixteen years, has been her representative at Bucharest. He has not yet reached this country.

Senor Arango, the present minister from Panama, is to be made a member of President Obald's cabinet and will be succeeded, possibly, by a new man, although there is some talk that C. C. Arosemena, the present first secretary of the legation, may be promoted to the position. It has been rumored that Viscount

NEW MINISTER

DR. LUIS LAZO ARRIAGA,
Who Succeeds Ugarte as Honduran Representative Here.

De Alto, the Portuguese minister, who is now absent, is to be replaced by a new man, but there is nothing official about it as yet. Similar rumors have been circulated about Baron Rosen, the Russian ambassador, and Dr. Wu, the Chinese minister, but they also lack confirmation. The British embassy is to have a new counselor and charge d'affaires to take the place of Esme Howard, who has been transferred to another post. Jonkheer J. Loudon, the new minister of the Netherlands to this country, made his formal call upon Secretary of State Root and Assistant Secretary Bacon yesterday. Arrangements will be made for his presentation to the President within a day or two.

Mr. Loudon succeeds Mr. Vanswinden, who was taken from Washington to become the minister of foreign affairs for Holland. Announcement was made with apparent authority some months ago, that Minister Corea, of Nicaragua, was to retire. Word has just been received, however, that he is on his way back to Washington.

COMMISSION HEAD DEFINES "FAMILY"

Limitation on Appointments
Apply Only to Children
Under Same Roof.

In response to a recent communication from the Secretary of the Treasury, the Civil Service Commission has decided that the law forbidding the appointment of more than two members of the same family in the executive departments applies with equal force to reinstatement. The heads of a department are enjoined to investigate and ascertain that an applicant for reinstatement is not a member of a family of which two are already in the Government service.

The question of family having been raised by several appointments, the matter was submitted the Civil Service Commission, and General Black, president of the commission, quoting from an opinion of the Attorney General on the subject, states it was decided by the Attorney General that an applicant for a position in the competitive classified service who resides with her father, a clerk in the Postoffice Department, and who has two brothers also in the classified service who maintain separate homes apart from their father, is entitled to appointment if otherwise qualified under the civil service law. The Attorney General also stated in the same opinion that children who have established separate homes apart from their parents are no longer members of the same family, within the meaning of section 9 of the civil service act. This citation also applies to a father with two sons in the department where the sons maintain separate homes. General Black says the Attorney General held that the "family" consists of those who live under the same roof with the paterfamilias—those who form his household; but when they branch out and become the heads of new establishments they cease to be part of the father's family.

WOMAN PAINTER DEAD.

PHILADELPHIA, Oct. 15.—Miss Carol H. Beck, one of the best-known historical portrait painters in America, died in a hospital here yesterday. She was a sister of former Assistant United States Attorney General James M. Beck, was a member of the board of managers of the Philadelphia Academy of Fine Arts, and well known as a critic and authority on art.

Lord Bacon Said, "Digest"

This is the Secret of Life in Business or in Health.

It is claimed that Lord Bacon struck the prime principle of life when he wrote: "Some books are to be tasted, others to be swallowed, and some few to be chewed and digested." He wrote of books; many who have followed him have written likewise of life. The man who digests his business, makes success; the actor or actress who digests his or her art brings fame; the man who lives life and digests it as he should lives as was the intention he should live.

It is not the food you swallow or taste that brings happiness to you; it is the food you digest. If you swallow and taste and don't digest and chew, Nature cannot give you health, for you do not furnish the ammunition. Stuart's Dyspepsia Tablets contain in pure, concentrated form the essences which, when they reach the stomach, turn dyspeptic conditions into those of healthy digestion.

These little tablets are dissolved in the mouth by saliva; they mix with this fluid and are passed down into the stomach, where they immediately set to work upon the food and digest it. They are many times more powerful than the human digestive fluids, and thus replenish Nature with those juices which sickness, abuse or wrongful eating have exhausted.

The world's best chemists in Europe and America agree on the ingredients best adapted to perfect digestion. Stuart's Dyspepsia Tablets are these ingredients presented to the stomach in the most pleasant and lasting form.

Powders and liquids soon lose their effectiveness through chemical actions and decay. Stuart's Dyspepsia Tablets are made under terrific pressure, and their qualities are thus made lasting. Forty thousand physicians prescribe these tablets, and every druggist sells them. Price 50 cents. Send us your name and address and we will send you a trial package by mail free. Address F. A.
